

Nitrile rubber is a versatile addition to Legacy's arsenal of formulations for practical sealing solutions. Among its many benefits, nitrile rubber provides good compression set and tensile strength, and is resistant to heat, abrasion and moisture. Its resistance to gas permeability also makes it corrosion-resistant to a long list of chemicals.

Specifying nitrile rubber components can be useful for protecting sealing systems from extreme exposures to corrosive chemicals in medical and industrial applications.

#5574-NIT	Head & Jamb
#7111-NIT	Door Sweep

**PRODUCT NOTES:**

Specify NIT option to order nitrile rubber for these components.

**PRODUCT KEY**

CA - Clear Anodized | MA - Mill Aluminum | BK - Black Anodized | DB - Dark Bronze Anodized | GD - Gold Anodized Aluminum | MB - Matte Black Powder Coat | WP - White Powder Coat | BR - Architectural Bronze | ORB - Oil Rubbed Bronze | POL - Polished Bronze | SP - Gray Steel Prime | SS - Stainless Steel
