PRODUCT NOTES:

Electrified door bottoms provide a practical solution for doorways to areas that need regular air flow but also require the door to seal during emergencies, such as a fire. Using a switch or push plate provided by Deltrex USA, the door bottom can be activated during such situations to provide a complete, airtight seal.

PRODUCT KEY

CA - Clear Anodized | MA - Mill Aluminum | BK - Black Anodized | DB - Dark Bronze Anodized | GD - Gold Anodized Aluminum | MB - Matte Black Powder Coat | WP - White Powder Coat | BR - Architectural Bronze | ORB - Oil Rubbed Bronze | POL - Polished Bronze | SP - Gray Steel Prime | SS - Stainless Steel
