

#64EA AUTOMATIC DOOR BOTTOM ON STAND-BY

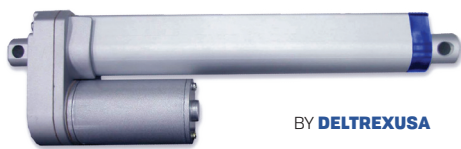

NOTES:

- Power Supply - Part #552
- Door Actuator Plate - Part #F106

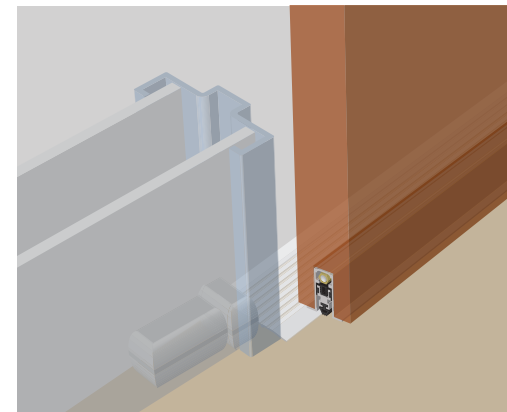

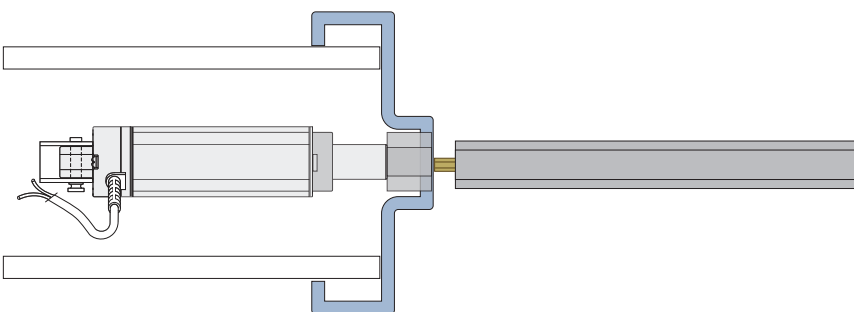

#64 - ADB ON STANDBY

Electrified door bottoms provide a practical solution for doorways to areas that need regular air flow but also require the door to seal during emergencies, such as a fire. Using a switch or push plate provided by Deltrex USA, the door bottom can be activated during such situations to provide a complete, airtight seal.
