To Whom It May Concern:

Re: LEED CERTIFICATION — Contribution Form: Legacy Manufacturing

This correspondence is written in response to your request regarding the use of several of our products to help achieve Leadership in Energy & Environmental Design (LEED) certification. It references the LEED Green Building Rating System for New Construction & Major Renovations (LEED — NC) as published by the United States Green Building Council (USGBC). Specific credits that apply to our products are as follows:

Products	Post Consumer	Pre Consumer
Thresholds (Aluminum)	5%	40%
Thresholds (Bronze)	5%	12%
Automatic Door Bottoms (Aluminum)	5%	20%
Door Sweeps (Aluminum)	5%	40%
Weatherstripping (Aluminum)	5%	20%
Weatherstripping (Bronze)	5%	20%
Weatherstripping (Silicone)	5%	12%
Weatherstripping (Neoprene Rubber)	5%	0%
Stainless Steel Cam Lift Hinges	5%	75%
Aluminum Continuous Hinges	5%	20%
Stainless Steel Continuous Hinges	5%	12%
Steel Prime Brackets	5%	40%
Photoluminescent Markings	5%	5%

LEED Category: Material and Resources (MR)

MR Credit(s) 4.1 and 4.2 Recycled Content: Pre-Consumer

The product contains pre-consumer content as defined by Guides for the Use of Environmental Marketing Claims, 16CFR 260.7 (e) (available at www.ftc.gov/bcp/grnrule/guides980427.htm) and therefore qualify for this credit.

MR Credit(s) 4.1 and 4.2 Recycled Content: Post-Consumer

The product contains pre-consumer content as defined by Guides for the Use of Environmental Marketing Claims, 16CFR 260.7 (e) (available at www.ftc.gov/bcp/grnrule/guides980427.htm) and therefore qualify for this credit.

MR Credit(s) 5.1 Regional Materials Manufactured Regionally

Thresholds, automatic door bottoms, door bottoms, door sweeps, head and jamb protections, weatherstripping, meeting stiles and hinges are manufactured in the Bronx, NY, 10455. If this facility is less than 500 miles from the project site, the thresholds, automatic door bottoms, door sweeps, head and jamb protections, weatherstripping, meeting stiles and hinges qualify for this credit.
